VOLUME 22, No. 17

CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA

FRIDAY, OCTOBER 27, 1916

Golden Tree Syrup. Have you tried it? It has a fine Maple flavor. Applied liberally to flapjacks made from Albers Flapjack Flour! How does that sound? Good. Well it tastes better. Then you might add a slice of Pioneer Bacon or Ham. And then a cup of Banquet Blend Coffee. A pretty good Breakfast for one of these cool mornings.

Flour is still advancing and to-day's prices may not be good to-morrow. A barrel of Golden Harvest Flour, is good a thing to have in the house.

Apples. Apples—some fine ones: Let us send you a box with your next order 60c.

Farmers Union Branch

SAFE DEPOSIT VAULTS

The vaults of this bank are especially designed for the protection and safekeeping of your valuables, such as Jewelry, Stocks, Bonds, Deeds, Promissory Notes, Insurance and other valuable papers that may be difficult or impossible to replace in case of loss.

Our Safe Deposit Boxes are of different sizes and may be rented individually or jointly by two or more persons.

They may be rented by the month or year, as preferred, and access to them may be had on every business day during banking hours.

Two keys are necessary to open a safe deposit box, renter's and our own, the latter being the Master Key and necessary to prepare the lock so that it may be opened by the key of the renter.

Patrons are afforded every facility for their convenience, comfort and privacy.

Local and Personal

Piano for sale; good condition, 225 North Central Ave.

P. G. Archibald of Soquel was visiting his brother, H. V. Archibald last week, returning home Monday.

Ernest Barron has joined the great majority and now sports about in a Chevrolet roadster.

Hugh Chauvin, who was threatened with typhoid is out again, altho showing evidences of his recent illness.

Mrs. Sidney Lancaster and daughter returned to Oakland Friday after a visit with Mr. and Mrs. J. W. Lancaster.

Mrs. Julia Sharpless has gone to Crockett, Contra Costa Co., for an indefinite time, as she is caring for a case of sickness.

All unclaimed dishes and belongings from the Floral Fete are at the Library, where the owners may obtain them.

FOR SALE: A good wood range stove, No. 8.

T. H. Bourne, Harrison Ave.

Mr. and Mrs. Ralston Alison returned Saturday from their vacation, and Mr. Alison resumed his duties at the bank Monday.

Los Gatos and Campbell played basket-ball on the local court Friday afternoon, the score being 85-33 in favor of Campbell.

Dr. J. C. Wasson has closed his offices here in the B. O. Curry building and has gone to Sacramento where he will be located for the present.

Mrs. Culvert who has been a guest of Mrs. Jas. Cochran for sometime, was joined by her husband and they left for Vallejo Tuesday.

Miss Ruth Williams, and the Messrs. William Paul and Clinton Peck of San Jose, were dinner guests of Mr. and Mrs. G. C. Bradford Saturday evening.

If the party, who unwittingly (?) carried off a box of Keith's correspondence cards, will call at Smiths, said Smith will be pleased to give him the decorated cover.

The social and work department of the Guild enjoyed its monthly social Thursday in the parlors of the church. Patchwork was the order of the afternoon, followed by light refreshments.

James Beardsley came up from San Diego Monday evening for a vacation and visit with his mother, Mrs. May Beardsley and family. This is their first reunion in seven years.

Johnson Avenue Improvement Club met at the home of Mrs. L. F. Shaw Monday evening, the attendance being quite large as interest in the new station is high. A number of the men were present and plans were discussed. Work on the new station to cost about \$200 will be begun in about two weeks. The John Brynteson property, third Messrs. Hagelin and Seagren, donated \$25 toward the expense. The series of parties is proving very popular and the hospitality of the Club is only limited by the homes.

The Campbell C. E's. turned out in goodly numbers for the County Convention at Palo Alto Saturday, going by autos. They took their lunches and dined with Mr. and Mrs. Easton Carter. The party consisted of Marion, Marjorie and Elizabeth Duncan, Merle and Verna Cutting, Evelyn Henry, Harriet Dunphy, Georgia Cochran, Dorothy Harris, Ruth Parsons, Winona and Irene Sawyer, Frank Mendel, Edward Vanderson, Gilmore Duncan, Rev. and Mrs. Eckles and Mr. and Mrs. Jas. Hyatt. Rev. Atkinson, who had passed the night here with his mother, accompanied them, returning from there to Martinez.

Shower for Miss Davis

Miss Genevieve Davis was the motif of a shower party, given at the S. G. Rodeck home Friday evening by the Epworth Leaguers.

The affair was a complete surprise to Miss Davis. Games of various kinds were played, and Warren French of San Jose delighted the company with several songs.

After refreshments had been served, a huge artificial pumpkin was brot in, which contained numerous packages for the guest of honor.

Bonfire Social

The open air meeting and good time planned by the Y. P. B's for Friday evening passed off very pleasantly with the exception of a few disturbances from some newcomers to the town.

A short program, including a girl's quartet, readings by Doris Leviston, a solo by Dorothy Harris, and chorus songs from the W. C. T. U. song book, was given, and then the members enjoyed popcorn and apples and a general good time around the bonfire.

Return Frank H. Benson To The Senate

Senator Frank H. Benson has represented this district in the Legislature with distinguished ability and neither Santa Clara county nor the State of California can afford to lose his services in the State Senate. Few men have acquired leadership in that body in as brief a time as has Senator Benson. His influence in State affairs is large and this influence has always been yielded on the side of right and decency.

Senator Benson was born in Santa Clara county and understands fully its needs and the sentiments of its people. Though engaged in the practice of his profession in San Jose he has agricultural interests which put him in sympathy with the rural population. He is the type of a citizen which the community is not ashamed to point to as its representative. He has absolutely made good and he will be returned by an overwhelming vote.

"Athletics Win"

In the hurry up time of 1 hour and 35 minutes our boys defeated the Redwood City Club last Sunday 3-2. Paul, heaving for the Athletics was going good and so were all other members of the team.

In the first inning Casey of Redwood slammed a hot one to Kennedy and beat it out. Jennings got one thru Gaines at first, Casey going to second. Golden-son flied out to Oliver. Herm then hit for two bags to left, scoring Casey. Mitchell dumped one to Paul and was thrown out. Redwood draws first blood. Now for the wrecking crew. Comes the Hon. Billy Ludwig with a three sack smash to left. Bellamy hit the air, and Martinelli fouled out to Casey. Looks bad—2 down. Up comes Purdy the clown and singles to right, scoring Ludwig. On Chase's wind-up Purdy steals second. Ed. Kennedy looks one over and wraps the pill to center for two bags and Purdy romped home. Our new player, Tramutolo, hit to 3rd and was tossed out. Two runs for Campbell. From second to eighth many brilliant plays featured but neither club scored. In the 8th Herm flied out to Bellamy. Mitchell hit to left for 2 bags. McCloskey next up hit to Kennedy who tried for Mitchell at 3rd, but all hands were safe. 2 on and only one down—looks bad. Grieb, formerly of Mayfield goes in to pinch hit for Robels in 8th and flied out to Ludwig. Mitchell scoring on throw-in. Chase hit to Paul who threw him out at first. The score is tied and the fans go wild, but look who's here. Paul hits and arrives at second. Ludwig sacrificed, Paul going to 3rd. Bellamy raps a hot one thru short and Paul scored. Martinelli flied out to left. Score 3-2. Only 3 batters faced. Paul in 9th and went out 1-2-3. Our boys play the fast Sperry Flour Club at Grant diamond, San Jose, next Sunday at 2:30 p. m.

The box score follows:

	AB	R	H	P.	O.	A.	E.
Kennedy, E. ss.	3	0	1	0	2	1	
Tramutolo, 3rd	4	0	1	0	0	0	
Gaines, 1st	4	0	1	12	0	2	
Oliver, lt	3	0	0	2	0	0	
Paul, p	4	1	2	1	6	0	
Ludwig, rf	3	1	1	1	0	0	
Bellamy, cf	4	0	1	4	0	0	
Martinelli, c	4	0	0	5	0	0	
Purdy, 2nd	3	1	2	3	2	0	
	32	3	9	27	10	3	

Time—1 hour 35 minutes.

Umpires—Gettings and Luckensmyer. Base on Balls off Paul 1—off Chase 1 Struck out By Paul 4—By Chase 11. Three base hits—Ludwig. Two base hits—Kennedy, Paul, Herm and Mitchell. Earned runs Campbell 3, Redwood 2.

E. E. Sower was a business visitor in San Francisco Monday.

Quality stationery at Smith's.

Mr. and Mrs. Harold Morton are the proud parents of a ten pound son, born Saturday, Oct. 21.

With the continued increase in the cost of living would it not pay you to consider these facts? One quart of Orange Grove Farm milk which costs you 8 1/2 cents delivered to your door is equal in food value to any of the following:—

3 lb. cheese worth	8 cents
8 eggs	30 "
1/4 lb. round steak worth	15 "
2 lb. chicken	45 "
2 lb. Salt codfish	30 "
4.8 lb. Turnips	9.6 "
2 1/2 lb. Apples	8 1/4 "

Not only is milk the cheapest food for you but when it is produced under "sanitary" conditions; from tested cows as ours is, it is the most healthful food obtainable.

BATTLES IN PEAKS

ALPS COULD TELL STORY THAT WOULD THRILL.

Mountain Ranges the Scene of Many Historic Encounters—Passes Traversed by Soldiers Thousands of Years Ago.

If the rugged peaks of the Alps could tell their story, there would be many a thrilling and warlike incident to relate; but none so strange as the ones enacted between the Austrians and the Italians in these mountainous regions. The Italians are absolutely at home in the mountains, and the Austrians are using every invention of science to counteract this advantage. All the parapets on the steep roads, where summer tourists were wont to motor, have been demolished, and beautiful pine forests have been swept away, so that nothing shall obstruct the artillery. Large areas have been mined, and by pressing a button the Austrians can hurl an avalanche of rocks and boulders on to the heads of the advancing Italians or blow up the roads beneath their feet.

From the Cottian chain, marking the boundary of France in the west, to the Carnic and Julian Alps, north and east of the Adriatic in Austria, there are generally a thousand passes and routes of more or less note, nearly all traversed by practicable roads, and some shortened by railroad tunnels. Over these roads armies marched to battle over two thousand years ago.

Mont Cenis pass may have been Hannibal's route when, in the year 218 B. C., the Carthaginian conqueror invaded Italy with a large army, half of which he lost amidst the Alpine snows. The conquest of some Alpine tribes by Augustus; the desultory warfare of Teutonic and Frankish hordes in the fifth and sixth centuries, and the increasing sanguinary strife of Swiss "confederates" and Austrian oppressors, which lasted from the breaking up of the Carolingian empire, in the tenth and eleventh centuries, until the crystallization of the Helvetic republic by Napoleon Bonaparte's act of mediation in 1803—all these fill the chronicles and make nearly every practicable foot of Swiss territory heroic ground.

When Napoleon entered Italy he crossed the Alps with an army of 30,000 by the Great St. Bernard pass, May 15-21, 1800. Later he constructed the great military road over the Simplon pass, from Brieg, in Switzerland, to Domodossola, in Italy, and thence to Milan.

The Silver Lining.

Not long ago a clergyman, in the course of ministrations among the poor of a large town, called on an old lady who had been bedridden for some years.

"Well, Mrs. Davies," he said, "and how are you today?"

"Oh, I'm pretty well, thank you," was the cheerful answer.

"Ah, that's right," responded the clergyman, sympathetically. "I hardly expected to find you to be in such good spirits, considering your affliction. I was afraid I should find you downhearted."

"No, no, sir!" she cried, interrupting him. "No, no, indeed, sir. I've much to be thankful for, I have. Why, only the other night, when that house just opposite was on fire, I couldn't help thinking of all the poor people crushing each other in the street, and many of them not getting a sight of the fire at all, while here was I, all nice and comfortable in bed, and I could see it beautifully through my window without even turning over! Oh, no, I've a lot to be thankful for."

Plain English.

An American who has been doing ambulance duty in France pretty close to the fighting line was working near another American one particularly difficult day. This friend was mild-mannered and mild-spoken, but as a French linguist he belonged to a class that would never be called for active service.

Their post was at a crossroads when the German artillery perversely began searching the neighborhood with shells. A high explosive shell dropped almost upon them; the friend was bowled over, eyes and mouth full of dirt. He stood up unceremoniously. "Whew," he remarked with emphasis, "if I just knew the French for Bon Dieu, I'd say it."

Dearie Me!

Ethel—Has Tom proposed yet, Maud?

Maud—No, not exactly.

Ethel—Not exactly! What do you mean?

Maud—Well, you know, he always used to knock when he came to our house to visit me. Well, last night he came with a ring.

A Wise Omission.

Luckily the following places were not included in General Pershing's itinerary:

Popocatepetl.
Tlaxico.
Coatzacoalcas.
Tlahuallila.
Bolonchenticul.
Hecelchakan.

Miniature Electrical World Replaces Big Desert Waste

Above—Dam and power house on Snake river, Idaho, that impounds water enough to grow luxuriant crops on 120,000 acres formerly barren land, and uses the rest to light and heat the houses and perform many of the daily functions in five towns and upon several thousand farms.

Below—Class in domestic science at the Rupert Electric high school, where electricity is used not only for cooking, but also for heating and ventilation.

Uncle Sam, by means of great irrigation projects, has turned many stretches of desert into blooming gardens but there is one project that stands out particularly as an example of what man can do toward altering the conditions established by nature.

Along the Snake river in Southwest Idaho there is a stretch of territory 40 miles in length which was once a barren desert, but is now dotted with green farms and prosperous, bustling towns. This metamorphosis has been brought about by the building of the Minidoka dam on Snake river, but it is not merely the transformation that has been wrought in the appearance of the country by the miracle of irrigation that is of chief interest. The Minidoka project has an attraction all its own because of the varieties of public service which the water impounded behind the dam renders.

Here is to be found a miniature electrical world. Electricity, generated at minimum expense by water power and sold by the government at cost, is used almost exclusively for light, heat and power in the five towns located in the district and also upon the several thousand farms scattered throughout the project. It operates a large grain elevator, a sugar refinery and an alfalfa meal mill. It heats and ventilates schools, churches and a 50-room hotel. It heats and lights the farmers' houses and furnishes power for the farm machinery.

Approach to Communism.

An economic unit has been created in a waste of sand and lava ash—or rather has grown up there under the wing of the government, the only possible way it could have grown—which represents a close approach to communism.

A portion of the water impounded by the dam enters canals and is distributed by the gravity system over 71,000 acres. Half of the water, in passing over the dam creates 10,000 horse power which lifts the remaining part of the first half of the water to higher benches of land that otherwise would still be barren. Thus more than 120,000 acres in all have water.

After lifting water for the extra 44,000 acres, there remains power sufficient to provide nearly all the essentials and many of the luxuries of life.

By law the United States reclamation service is required to supply water and power, when power is available, at cost. Hence the charges are low. For light, the average farmer's bill runs to about \$1.25 a month. For light, ironing, washing, vacuum cleaners and cooking, the cost in the average household is \$3.00 a month. In winter, adequate power for heating a 5, 6 or 7-room house is obtained at from \$6 to \$8 a month. Soft coal costs \$8 a ton on the project and as considerably more than one ton a month is needed for continuous heating and for cooking, the actual money saving is large.

Electricity Heats Schools.

In Rupert and Burley, the principal towns, 75 per cent of the buildings and homes, large and small, are heated by electricity. Last year Rupert completed a high school housing 600 pupils which is ventilated and heated throughout by electric power from the government plant. Burley has now invested \$80,000 in a concrete school building, also to be heated and ventilated by electricity, which will house 2,000 pupils.

In the Rupert school, fresh air is drawn from the roof at the rate of 50,000 cubic feet a minute. It passes through electric coils which heat it to 50 degrees Fahrenheit. Next it is washed and humidified and then reaches a large motor-driven blower. This forces the air into two chambers, in the one of which a portion is raised to about 100 degrees and in the other of which cool air is retained. Separate ducts carry the air from the two chambers to each room in the building. The ducts are connected and there are connections controlled by dampers, so that the temperature in each room is maintained at 68 degrees.

Hot water is provided electrically also. The domestic science department has a complete outfit of electric plates for the use of the individual students, as well as a large electric range for baking and cooking on a larger scale. Practical use is made of the domestic science department in the preparation of hot lunches at noon for all the student body. The food is sold at low prices. Meal tickets can be obtained either for cash or in exchange for such supplies as milk, eggs and butter.

The building is splendidly lighted and is used in the evenings as a social center. The auditorium seats 500 people.

Farmers Use Current.

Power is sold to individuals on the project but the more economical way involves group purchases.

"Organizations of the farmers have been formed," said a government official. "Each organization deals with the reclamation service in purchasing the power required for the use of all the members of each organization. It is then distributed over lines constructed by each group. One morning last summer I drove out into the country about 8 miles from Rupert and stopped to chat with a homesteader. His house was a modest structure costing probably not to exceed \$250. The place was well shaded with Carolina poplars and had a well-kept white clover lawn in front.

"I observed a power line leading directly to the house and inquired about it. The farmer said he was one of the directors in the Farmers' Electric Co. and used electricity for many purposes. My curiosity was aroused, and I went into the house to investigate.

"I found every room lighted and heated with electricity. In the kitchen was a large electric range, the very latest on the market, with four hot plates, a large oven, and a broiler. Water for stock and household use was pumped electrically, and the same force will be used about the barn for various purposes. This unpretentious home on a farm only four miles from desert possessed conveniences and up-to-date labor-saving equipment which probably cannot be found elsewhere except on the farmsteads of the very rich in the oldest districts of the country."

Broiled Lizard Pleases Marines' Palates.

Perhaps broiled lizard will never find its way to the menu of fashionable American restaurants, but Uncle Sam's marines attached to the American legation at Managua, Nicaragua, have found, as entremets to the lotus, fried or broiled iguana steaks, served with a tasty sauce made from alligator pears, to be everything claimed by the native epicures.

The iguana, or giant lizard, has been used for food by the natives for many years, and iguana steak finds much favor with them because of its gamey taste. The iguana is herbivorous.

Drug Business Grows.

During the five years between 1909 and 1914 there was a substantial increase in the manufacture of druggists' preparations, patent and proprietary medicines and compounds and perfumery and cosmetics in the United States says Uncle Sam. Reports for 1914 were received from 4,082 establishments, with products valued at \$172,008,946. The number of establishments in 1914 exceeded that in 1909 by 440, or 12.1 per cent, and the value of the products increased during the five-year period by \$30,067,334, or 21.2 per cent.

Millions in Sand and Gravel.

The United States produced 76,603,303 short tons of sand and gravel, valued at \$23,121,617, during 1915, says Uncle Sam.

WHEN MUSIC BEGAN

ORIGINALLY CREATED FROM EX-PRESSIONS OF EMOTIONS.

"Song" Was the Beginning of All Music—Development Carried Forward by Uncultured Peasants—Trained Men Came Later.

"Song" was the beginning of all music. No other form of music—vocal or instrumental—had an independent origin. All, without exception, are offshoots of developments from "song."

Not only, then, was "song" the beginning of all music, but it is the basis upon which all music rests today.

It is the trunk of the tree from which sprang all the multitudinous limbs, branches, stems, leaves, blossoms and fruit that constitute modern music.

The foliage and the flowers and fruitage of this wonderful tree are, naturally, more beautiful and more varied than the primitive trunk.

Furthermore, paradoxical as it may seem, music was not originated by musicians. It is the voicing of a universal instinct for emotional expression, as powerful (though not as formal) in the primitive savage as in the cultured modern.

Music, in its original form of "song," sprang spontaneously from untaught primal instincts. Later, uncultured peasant folk carried forward the development of what might be called a "natural art."

Trained musicians followed after, as a result, not a cause. They took the elements of music—melody and rhythm—which already existed, and which had even been crudely formulated by their originators, the "common people," and transmitted orally from generation to generation.

These elements the trained musicians formulated more scientifically, wrote down (after having developed a system of notation), and finally perpetuated in print.

At the same time they developed harmony, which was originally discovered by accident rather than by design.

Thus the trained musicians were like the binders in a harvest field who follow the reapers and gather what has been reaped, and bind the scattered wheat into formal sheaves.

Often the binders went far afield and gathered tares and brambles, thinking these must be better than the wheat, because that had been selected by untaught instinct. But always they came back to the wheat field and ultimately made their musical bread and cake with the wheat garnered by the peasants.

The untutored originators of music might justly say:

Self-taught I sing; by heaven, and heaven alone,
The genuine seeds of poetry are sown.
—New York Mail.

China's Grand Canal.

China is reported to be considering the restoration of the old canal system, of which there were at one time 60,000 miles within the empire. Centuries before the Christian era the great rivers of China were diverted from their natural courses, the waters of one turned into another's bed and the waterways carried along in the direction of the desired traffic.

The ancient Grand canal extends from Hangchow to Tientsin, traversing the provinces of Chekiang, Kiangsu, Shanghai and Chihli, the total length of the canal being about 850 miles, says the Christian Herald. China is in desperate need of transportation, and it has been estimated by engineers that the canal system can be restored at a less cost than that which would be involved in the building of the necessary railways. With the canal again in operation the railway building can go on at greater leisure.

Cattle Stand After Death.

Observing that two heifer and four calves in a pasture near his farm, six miles north of Cheyenne, Wyo., had been standing in the same position all day, Peter Lauritsen investigated and was amazed to discover that the animals were dead.

They had huddled against a barbed wire fence during a thunderstorm. Lightning had struck the fence and all had been electrocuted, but had remained standing.

Lauritsen was unable to push them over and in order to get them into position for skinning it was necessary to attach ropes to them and pull them over by horsepower.

Meeklow's Retort.

"Here's an article headed 'One Wife Too Many,'" remarked Mr. Meeklow at the breakfast table.

"Humph! one of those horrid bigamists, I suppose," snorted his very much better half.

"Not necessarily," murmured Mr. Meeklow.

Tactful Discretion.

"But you listen to people who talk gossip."

"Always," replied Miss Cayenne; "so as to know what topics to avoid in my own conversation."

Natural Result.

"I don't like Doctor Hackem. He has such a sharp, cutting way about him."

"He can't help it. He performs about 20 operations a day."

Too Much Class.

"I don't hear of any large catfish or perch being caught."

"The season started too big, whales and sharks from the jump."

Ignoring Each Other's Faults Brings Happy Wedded Life

By LAURA JEAN LIBBEY

What! Would you that we re-embrace—
We two once more?
Are these your tears that wet my face
Just as before?

It does not augur well for future happiness for a bride or groom to commence finding fault with each other ere the honeymoon has barely waned. Marriage is always an eye-opener to the most romantic, deluded pair. It is wisdom for both to hold the tongue concerning what they have found out about each other.

If the wife likes to set up in to the wee sma' hours reading novels—a habit the husband never dreamed she possessed—he will not gain in her opinion or affections by railing crossly at her. The memory of an unkind word can last for years. Wise is the man who would calmly remark: "When you have finished reading, be sure you turn the light quite out and see that the door is locked," then turn his back and drift peacefully out into the land of dreams. Wifey would not be half

so apt to turn the pages over tantalizingly until broad daylight.

If a wife discovers her bridegroom spends half of his salary in cigars and treating friends—is actually a spendthrift, a fact she never knew before—instead of raising a great row over the missing sum from his weekly pay envelope, she should by womanly tact and loving kindness wean him from his fault by degrees without giving him so much as a hint that she had discovered his weakness and was devoting all her energies to battling silently against it. If she denounced him as a spendthrift, he would lose at once his fear of her finding it out.

And so on with the trifling faults of each to the greater ones. The reason why some married couples cannot agree is because they find singular pleasure in throwing up to each other the faults they have discovered.

Married life, in the majority of cases, consists of keeping tab on each other and keeping to oneself what she or he finds out. Those who adhere to this plan have a fairly happy life of it together. The couples who taunt each other with what they know of each other's faults or follies wrangle all through their wedded days, having a wretched existence of it.

Ever could not keep a secret. She divulged what she had found out. It is natural for her daughters to follow her example. Then trouble will catch them if they don't watch out.

Domestic Diplomacy

Mrs. Brown Never Did Like That Big Stove, but It Required Some Skill to Get Rid of It.

Mrs. John Brown, a friend of Henrietta's, says that when she married, John allowed her to select everything for the new home with the exception of the kitchen stove.

"A man knows better how to select than a woman," said he. Manlike, he bought the biggest range and the highest priced one on the market.

The wife was very proud of the stove, but did have spells of wishing that the kitchen was larger or the stove smaller, so that each would not be so conscious of the other's presence.

The first few years they moved about considerably, as is the way with newly weds, and the bugbear of moving was always the stove. Finally, wife coaxed round a bit and suggested that they sell it and get a smaller one, and hubby acquiesced.

In a week or two, wife had found a purchaser in a woman who lived in the second-story apartment next door. When the wagon came to take the stove away, they had an awful time to get it out of the kitchen, and the wife breathed a big sigh of relief when she saw it well out of the yard and on its way up the stairs of the next-door apartment. A few minutes later she looked out, and to her horror they were bringing it back down the stairs. "What's the matter?" she called.

"We can't get it in the door," said the man, "it will have to be taken up through the window."

Wife decided not to show herself again until the stove was well inside the apartment. The next time she peeped out, they were operating a pulley device, by which the horse went round and the stove went up; it was already five feet in the air.

"Good," thought Mrs. Brown. In a minute or two she again peeped out, and they were still operating the pulley device, but the horse was going up and the stove down. "Me for action," said Mrs. Brown to herself, and hastily throwing a few clothes into a suitcase, she made for the home of her mother, where she and John remained for several days.

What the woman in the next apartment said to Mrs. Brown when she got back home would make another interesting story, but Mrs. Brown only wiped the tears away with her apron, and said that it was just nearly breaking her heart to do without that stove; that there never was an oven that could bake such good pie, cake, etc.—Cleveland Plain Dealer.

Royal Stamp Collectors.

Among the world's celebrated collectors are King Alfonso of Spain and Don Manuel, one time ruler of Portugal. When the latter ascended his throne he ordered the directors of the mint to locate all of the old plates from which stamps had been printed and had struck off all of the Portuguese stamps not in his collection. But one sheet each of the missing stamps was printed, and he has them all. Enrico Caruso, the singer, also has a fine collection, and it is said that his friends often show their appreciation of his genius by gifts of rare additions.

Mother's Cook Book.

The older I grow the more confident I am that thoughts go out like arrows; that mental states permeate the very atmosphere; that men and women are often criminally guilty for the mental touch that goes out from them in electric fire to some other—Autobiography of a Happy Woman.

Appetizing Apple Dishes.

A delicious dish that the children like, and one that the older ones will like to eat in milk, is apple corn bread. Make a Johnny cake as usual and stir in a pint of chopped sweet apple. Bake as ordinary corn bread.

Apple Puffs.

Make the ordinary apple sauce of tart apples, not adding as much sugar as usual. To a quart of the sauce stir in three tablespoonsful of strawberry jam and with a strong egg-beater beat until stiff, then fill cream puffs with the mixture, place each on a plate and pour around it a soft custard sauce, flavored with almond extract.

Apple Whip.

Grate a large apple, mix with a cupful of sugar, then beat into an egg white, beating until it stands alone. Serve as dessert with sponge cake.

Apple Cream Pie.

Stew a quart of apples till transparent, rub through a colander, sweeten to taste, add one cupful of cream, flavored with a teaspoonful of extract of lemon. Line a pie plate with good pie crust, fill with the apple and bake until the pie crust is done. Have ready a meringue of whites of two eggs, a pinch of salt and three tablespoonsful of sugar, flavor with a few drops of lemon and spread over the pie. Bake until a light brown.

Apple in Caramel.

Put a cupful of light brown sugar into a skillet, let the sugar melt, then add a half cupful of boiling water and drop in five cooking apples peeled and halved. Let these stew in the sirup until they are tender, then put them in a glass dish. In another saucepan have one tablespoonful of butter, melted, add a teaspoonful of flour, mix well and pour over a half cupful of cream. When hot, add to the boiling sirup, stirring briskly for five minutes, then pour over it the apples. Serve either hot or cold.

Gretchen's Apple Tart.

Cook four cupfuls of chopped apple in four tablespoonsful of butter until soft, add half a cupful of orange marmalade and rub through a sieve. Beat half a cupful of butter to a cream, add the yolks of four eggs, one cupful of soft bread crumbs, half a cupful of sugar and a pinch of cinnamon. Mix well and spread over the apples which have been placed in a baked shell. Bake 15 minutes.

Nellie Maxwell

How to Keep Bread Fresh.

Bread may be kept a long time in a suitable oxygen-free atmosphere. In a recent American Chemical society paper, Arnold Wahl pointed out that as the bread cools, the carbon dioxide in its pores is condensed and dissolved in the free water of the bread, and the resulting vacuum causes an absorption of gases from the atmosphere. Cooled in ordinary air, oxidation of the protein by the absorbed gas renders the bread stale in a few hours. Mr. Wahl has found preferable an atmosphere of carbon dioxide freshly produced by fermentation, and when cooled in this the bread is so modified as to remain fresh several weeks.

Sworn to and subscribed before me this 2nd day of October, 1916
John F. Duncan, Notary Public.

Took a Chance.
The late Eugene F. Ware had filed a demurrer and was arguing the case before Judge Samuel F. Miller. The latter stopped counsel with the remark: "Mr. Ware, there is no use taking up any more time of this court. Why, that question has been decided against you by every court in Christendom."

"Oh, yes," replied Mr. Ware in his genial and pleasant way, "I am aware of that, your honor, but I know your honor occasionally makes decisions contrary to every court in Christendom, and I thought perhaps this would be one of the times."

"Go on, Mr. Ware. Go on, sir. I will hear you. Go on, sir."—Case and Comment.

Strategy.
"What was all the argument between you and the judge yesterday?"
"Oh, we were discussing the merits of our respective cars."

"That's a foolish thing to do. You can never convince a man that your car is better than his."

"I know that, but I got him so mad that he committed himself to the statement that my car can't make over ten miles an hour. The next time I brought up before him for speeding I reminded him of that."—St. Louis Post-Dispatch

Meeting of the California Library Association

There will be a meeting of the Second District of the California Library Association, to which district Santa Clara County belongs, on November 4th, at Crockett, Contra Costa Co. The beautiful Y. M. C. A. building, built by the California and Hawaiian Sugar Refinery, will be thrown open to the visitors and the meeting will be held in one of the assembly rooms. The general subject of the afternoon will be the relation of the library to the foreigner; the library and welfare work; the library and continuation study. Mr. George Runyon, secretary of the Y. M. C. A. at Crockett, Mr. D. L. Hennessey, principal of the Berkeley night school, and F. F. Nalder, secretary of the Bureau of Correspondence Instruction will be the speakers. Through the courtesy of Mr. George Rolph, manager of the Refinery, a tour of the plant will be made.

There will be an exhibit of books on citizenship, books for foreign and community civics. The train service from San Francisco is as follows: Leave S. F. 11:40 a. m. arrive Crockett 12:57 a. m. Leave Crockett 4:40 p. m. arrive S. F. 6:30 p. m. Fare round trip from San Francisco, \$1.25.

Crockett, "The Queen City of the Straits", is a delightful little town, built upon hills facing the bay. The California and Hawaiian Sugar Refinery is the industry of the town, and is the cause of its life and growth. The Refinery employs hundreds of men and the factory buildings are strictly modern. It will be a great pleasure as well as privilege to be shown through the mill.

Methodist Church Notes

The trustees have issued a call to the men of the congregation to gather Saturday morning for a day's work on the church premises to get everything in good condition for the winter.

The Rev. G. O. Ash will preach to the older people of the congregation Sunday morning, Old Folks' Day. Notify Mr. E. R. Kennedy of any old people who need conveyance to the church. The members of the Epworth League will welcome the elderly people as our special guests for the morning and see that they are as comfortable as possible.

Mr. Kammerer will conduct the League meeting at 6:30 Sunday evening, the topic being, "Am I Evading God's Call?" "Christian Citizenship" is the subject for the Sunday evening sermon by the pastor. This is a peculiarly appropriate theme for this particular time, and its discussion was never of more importance than right now.

The meeting Wednesday from 7:30 to 8:30 will be devoted to the Dry Campaign. Come and join us in prayer for the overthrow of the liquor evil. Every Christian should be thoroughly alive as to the real issue in this campaign. We are trying to cast out the saloon with all its attendant institutions; while those who oppose us would protect the saloon with all the evils that congregate about it. It is not a question of grapes but of strong drink.

Congregational Church Notes

By special request and arrangement the pastor will speak next Sunday evening on "Christian Citizenship". As this theme bears upon our relation to others particularly, the theme of the morning will be, "What We Owe Ourselves", and will prepare the way for the second address.

The citizens' meeting held in the church last Sunday evening was well attended and proved a benefit to those who came. The three speakers presented their theses in a clear and convincing manner.

Next Sunday morning the first half of the Sunday School hour will be given into the hands of the W. C. T. U. They will present matters of interest to all.

Owing to the serious illness of a brother it will be necessary for the pastor to be absent a part of next week. He will be here, however, for all Sunday services.

THE COMPELLING PERORATION TO MR. HUGHES' ACCEPTANCE SPEECH.

We live in a fateful hour. In a true sense, the contest for the preservation of the Nation is never ended. We must still be imbued with the spirit of heroic sacrifice which gave us our country and brought us safely through the days of civil war. We renew our pledge to the ancient ideals of individual liberty, of opportunity denied to none because of race or creed, of unswerving loyalty. We have a vision of America prepared and secure; strong and just; equal to her tasks; an exemplar of the capacity and efficiency of a free people. I endorse the platform adopted by the Convention and accept its nomination.

THOSE who saw a Democratic victory in the Republican majority in Maine will have no difficulty in proving that the defeat of Wescott, the President's own choice for the Senate in New Jersey, is an endorsement of Wilson. If this sort of thing continues, the Democrats will score a triumphant victory on November 7 in the election of Hughes.—Philadelphia North American.

SENATOR FRANK H. BENSON, was in Campbell Wednesday in the interests of his candidacy for re-election. The senator has many earnest supporters in this vicinity who approve of the stand he has taken on many moral issues. Mr. Benson, having proved a strong man in the senate last session, is the man for the Twenty-seventh district to send as its representative to that body.

GOVERNOR MOSES ALEXANDER of Idaho has given an excellent testimony of the working of Prohibition in Idaho. In part he says:

"You have my permission and authority to make a statement, publicly, without reservation, that Idaho's Prohibition law is a success."

A LARGE laundry in Denver gained 401 new patrons during the first "dry" month, it was found that about 40 washerwomen had given up their jobs because money was brought home instead of being spent for intoxicating liquors.

"WE are not alone creating wealth in Idaho as never before but are creating a higher type of civic righteousness among men and women which we consider a larger asset than any material wealth could give us."

"SAVING bank deposits have increased since Prohibition has gone into effect. In the mining districts; the mining companies report less percentage of accidents and there are no idle men in the State."

CREDIT men state that long overdue accounts are being paid. Jobbers and wholesale firms report a remarkable increase in business in small towns.

PAWN shops and jails are the only institutions which have suffered a falling off of patronage because of state-wide prohibition.

"THANK God for Wilson prosperity," shouts a campaign orator. Still most people blame the Kaiser for the war.—Cleveland Leader.

Local and Personal W C T U Notes

Now is the time to have H. C. Smith send in your subscription for magazines.

A railroad crew began the work of removing the track from the county bridge yesterday.

The W. C. T. U. will meet with the president, Mrs. W. W. Powell, North 1st street, Nov. 1, at 2:30.

Rubber Over Shoes for the Whole Family and Ball Band Rubber Boots in long and short at E. E. Sower's Cash Store.

Mr. and Mrs. W. T. Morton went to Fresno Sunday for a three weeks visit, while Mr. Morton looks after his interests there.

10 Acres—A Bargain, all in bearing prunes. \$4,000, & cash. You can't beat it.

Campbell Realty Co., Sole Agents.

Campbell was well represented in the Dry Campaign parade in San Jose, Wednesday afternoon, altho there were not so many autos as the committee had hoped for, but the combined forces made a splendid showing.

A. G. Williams returned Wednesday evening after an absence of several months, during which he travelled 9000 miles and visited many places. His son, Worthin, and daughter, Mrs. Gratton accompanied him East to New York, Boston, and New Hampshire. On the return trip he spent a few days in Pasadena at the home of his son, altogether enjoying a most delightful trip.

WANTED—200 HOUSEWIVES to call at the store of THE FARMERS UNION, and purchase ELECTRIC SPARK, the wonderful self-washing, vegetable-oil white laundry soap. Produces the effect of a water softener, dirt loosener or washing tablet, linen whitener and soap combined. No rubbing on a board; no boiling; just dissolve soap, soak clothes 30 minutes, rinse and they are ready for the line. Will not shrink woollens and guaranteed not to injure the hands or the finest fabric, and to please all users. SPECIAL, 5 bars for 25 cents.

Smith--Isbell

Miss Lillian Isbell and Albert Smith were married Friday afternoon, at the home of Rev. Chas. Switkenbank, pastor of the Willow M. E. church, San Jose.

Mr. Smith has been employed at El Portal this summer, but recently has been engaged in ranch work southeast of Campbell and plans to operate a ranch in this vicinity.

Mrs. Smith has resided in Campbell for the past two years and has many friends here, who extend their best wishes for the happiness of the newly wedded pair.

Improvement Club

Thursday evening, Nov. 2nd, is Improvement Club meeting, and a large attendance is expected. Several committees are to report and matters of general interest are to be taken up and discussed. Be present. Don't leave it all for the other fellow to do.

See our new sample line of Christmas Greeting Cards to be printed as you wish. We wish to order early and avoid delay.

Estate of John Troedson, sometimes known as John Trotsen, Deceased.
Notice is hereby given by the undersigned executor of the last Will and Testament of John Troedson, sometimes known as John Trotsen, deceased, to the creditors of and all persons having claims against the said deceased, to file them, with the necessary vouchers, in the office of the Clerk of the Superior Court in and for Santa Clara County, California, within four months after the first publication of this Notice, or within said period to exhibit the same, with the necessary vouchers, to the said executor at the office of L. D. Bohnett, Rooms 313-314 Bank of San Jose Building, in the City of San Jose, County of Santa Clara, State of California, where all business connected with said estate will be transacted.
San Jose, Cal., this 18th day of October, A. D. 1916.
A. O. SJOLUND
Executor of the last Will and Testament of John Troedson, sometimes known as John Trotsen, Deceased.
L. D. Bohnett, 1st pub. 10-20-16
Attorney for said Executor.

DUTY OF THE ADMINISTRATION TO STOP PLOTS AND CONSPIRACIES.
We denounce all plots and conspiracies in the interest of any foreign nation. Utterly intolerable is the use of our soil for alien intrigues. Every American must unreservedly condemn them and support every effort for their suppression. But here also prompt, vigorous and adequate measures on the part of the administration were needed. There should have been no hesitation, no notion that it was wise and politic to delay. Such an abuse of our territory demanded immediate and thoroughgoing action. As soon as the administration had notice of plots and conspiracies it was its duty to stop them. It was not lacking in resources. Its responsibility for their continuance cannot be escaped by the condemnation of others.—From Mr. Hughes' Speech of Acceptance.

PROMISE TO REDUCE THE COST OF LIVING NOT KEPT.
Our opponents promised to reduce the cost of living. This they have failed to do. But they did reduce the opportunities of making a living. Let us not forget the conditions that existed in this country under the new tariff prior to the outbreak of the war. Production had decreased, business was languishing, new enterprises were not undertaken. Instead of expansion there was curtailment and our streets were filled with the unemployed. What ground is there for expecting better conditions when the unhealthy stimulus of the war has spent its force and our industries and workmen are exposed to the competition of an energized Europe?
It is plain that we must have protective upbuilding policies.—Mr. Hughes' Speech of Acceptance.

I favor the vote for women.
Sure Proof.
"Mr. Jones is an extremely obstinate man in his opinions."
"I don't find him so."
"Oh, but he is. I can never bring him over to my way of thinking."
Baltimore American.

TAXES 1916

OFFICE OF THE TAX COLLECTOR, COUNTY OF SANTA CLARA, CALIFORNIA
San Jose, California, October 2, 1916.
NOTICE IS HEREBY GIVEN that the Taxes for the Year 1916 will become due and payable:
FIRST INSTALLMENT. Taxes on all personal property, a lien on or secured by land, and one-half of the taxes on all real property will be due and payable Monday, October 16th, 1916, and delinquent on Monday, December 4th, 1916, at six o'clock P. M., when 15 per cent will be added to all said first installment remaining unpaid.
SECOND INSTALLMENT. The remaining one-half of taxes on all real property will be due and payable January 1st, 1917, and delinquent April 30th, 1917, when 4 per cent will be added to all taxes remaining unpaid.
Taxpayers may, if they desire to do so, pay the whole tax at one payment.
For the purpose of receiving taxes I will be in the several townships of the county as follows:
